### The Health Mediators project in Romania (RHM ? Roma Health Mediators)

In 1991, a first mediation program was initially conceived by the Romani Criss NGO mainly focused as a conflict mitigation project. Mediators were being trained to improve communication between Roma communities, non-Roma population and local authorities. In 1996, supported by the Catholic Centre against Famine and for Development (CCFD), the NGO reoriented the program to a health-focused mediation, principally aimed at improving social conditions for Roma and facilitating communication between Roma communities and medical providers.
